

Soothing images and how they relate to individual traits and symptoms

We are looking for participants to take part in our online study. It will involve submitting photos you find soothing to Project Soothe and completing some questionnaires.

This will take about 20-40 minutes.

You can take part if you are age 18 years+

Please visit projectsoothe.com or scan the QR code below for more details or to take part.

This study has been granted ethical approval by the PCLS ethics committee at the University of Reading (insert ethics number)
